USING STAND PEG MEASUREMENT TO ASSIST INSERTION OF MANNEQUIN

Step 1

Place the base bar at the narrowest point on the AlvaForm stand.

Step 2

Add the side clamps to the base bar.

Step 3

After moving the base bar forward on the AlvaForm stand until it can go no further, begin tightening the screws on the bottom of the side clamps.

Step 4

Place the standing pegs on the movable holed plates and tighten.

Step 5

Find out the stand peg measurement
E.g. Half Distance=79mm.

Step 6

Adjust the stand pegs position to the stand peg measurement.

REMINDER

The stand peg measurement is positioned behind the right leg.

Step 7

Lock the stand pegs with the wrench provided.

Step 8

Insert the mannequin onto stand pegs.

REMINDER

Different mannequins have different stand peg measurements, even if they are same form size.

CAUTION

Do not hang the form on the hanging bar and insert the legs in the standing pegs at the same time.

CAUTION

Do not only insert one standing peg to support the form.

CAUTION

Do not turn the form when they are on the standing pegs.
